John Doe - Full Stack Developer Resume

San Francisco, CA

Email: john.doe@example.com

Phone: (555) 123-4567

LinkedIn: linkedin.com/in/johndoe

GitHub: github.com/johndoe

Summary

Full Stack Developer with 5+ years of experience building scalable web applications using React, Node.js, Express, Next.js, and PostgreSQL. Strong background in REST API and GraphQL development, cloud deployment (AWS, Vercel), and CI/CD pipelines. Passionate about clean, maintainable code and mentoring junior developers.

Skills

Frontend: React.js, Next.js, Redux, TailwindCSS, TypeScript

Backend: Node.js, Express, NestJS, GraphQL, REST API

Databases: PostgreSQL, MongoDB, MySQL

DevOps: Docker, GitHub Actions, AWS (EC2, S3, RDS), Vercel

Other: Agile, TDD, Git, WebSockets

Experience

Full Stack Developer | Acme Corp (Jan 2021 - Present, San Francisco, CA)

- Built and maintained a SaaS dashboard for 10,000+ users.

- Developed reusable React components and integrated them with REST APIs.

- Optimized backend queries, reducing API response time by 40%.

- Implemented JWT-based authentication and role-based authorization.

- Deployed microservices to AWS with Docker and Kubernetes.

Software Engineer | TechSolutions Inc. (Jun 2018 - Dec 2020, Remote)

- Developed internal tools using Next.js and Express to automate reporting.

- Migrated legacy PHP applications to Node.js, improving performance.

- Built GraphQL APIs for data-driven dashboards.

- Wrote unit and integration tests with Jest and Mocha.

Education

B.S. in Computer Science, University of California, Berkeley - 2018

Projects

- TaskFlow (Open Source) - Kanban-style task manager (React + Node.js + PostgreSQL)
- Realtime Chat App - Built with WebSockets and Socket.io, deployed on Heroku
- Portfolio Website - Personal site built with Next.js and TailwindCSS

Certifications

- AWS Certified Solutions Architect - Associate
- MongoDB Developer Certification
